

## Letter to Previous Lake Country Art Festival Exhibitors

The 33<sup>rd</sup> Annual Lake Country Art Festival has had to move its location from St John's Northwestern Military Academy due to field remodeling. We want to assure you that the site we have selected, Naga-Waukee Park, is a great place to hold our event. We rented the entire park excluding the beach, boat launch and camping areas, which will remain open to the public. We will be primarily in picnic areas 1 and 2 with parking directly in front of the display area going out to Hwy 83. There are mature trees to provide shade in several of the areas. The grounds are flat and obstacle free for optimum tent placement. Holding the Art Festival at the park provides us with more room to expand, add children's activities, and offer beer and other beverages to attract more customers. The prominent position on Hwy 83 is also a benefit. If you have any questions or concerns regarding the new location, please contact us using the Contact Us form on our web site or at [lakecountrywomensclub@yahoo.com](mailto:lakecountrywomensclub@yahoo.com).
